

KNIPPER PAL™

Portal for Authentic Logistics

Web Browser Access for Your Buyers to DSCSA Transaction Documents

A secure internet accessible portal for your buyers to access detailed Drug Supply Chain Security Act (DSCSA) transaction documents (TD), complete with serialization, child to parent aggregation of serial numbers, transaction information (TI) and transaction statement (TS).

Simplifies your DSCSA compliance by offering a solution for buyers to receive required information without the complexity of Electronic Product Code Information Services (EPCIS).

The intuitive design makes Knipper PAL easy for buyers to search and confirm serial numbers or see transaction details, including serialization.

Knipper 3PL will provide your company with access credentials to securely access transactional data, including serialization.

Designed with the DSCSA compliance requirements for after November 27, 2023, your buyers will have confidence in their DSCSA compliance and no extra cost when they purchase your products.

Designed for any size company, Knipper PAL is especially beneficial for dispensers, who must receive the transaction documents but do not need to send the information to a new buyer. Knipper PAL retains the transaction details, and the information may be printed or saved.

- ✓ DQSA/DSCSA Compliant, developed to support cGMP and 21 CFR part 11.
- ✓ Secure encrypted connection between browser and Knipper PAL.
- ✓ No special setup by your buyer to use it. We provide the password. That's it.
- ✓ Easy, intuitive interface does not require training for your buyers.
- ✓ Knipper 3PL also supports other methods for compliance, including EPCIS.

THE KNIPPER 3PL ADVANTAGE

It's Built for You:

The flexible, tailored solutions of Knipper 3PL integrate an agile, responsive business model with trusted, proven distribution services and an innovative suite of combined technology capabilities to drive performance, efficiencies and cost-controls.

Our Leadership & Experience:
